

Ewe John/ Romans Dedication

In Togo, West Africa

The dedication of the new Ewe Bible translation for Togo West Africa took place this morning (Saturday, August 10, 2019). Just a few of the translators were not able to attend but overall the people were excited to read this new translation and hold it in their hands. What a site it was to see them open the container...carry boxes of Bibles and bilingual French/Ewe John and Romans to their churches for distribution. It was a joy to preach the dedication service and commend them on their hard work and then to challenge them to continue the good fight.
